

# Prenuptial Agreement

It may not be something you would expect to see in a fairytale romance, but prenuptial agreements are becoming increasingly common in today's day and age. A well-crafted prenuptial agreement can ensure your financial future by protecting you from the whims of the court, which has great discretion in determining how marital property should be divided in a divorce.

Whether you are seeking a prenuptial agreement or you have been approached by your prospective spouse to agree to one, it is important to seek the counsel of a knowledgeable family law attorney.

My name is a Carla D. Franklin, a Gainesville lawyer with nearly 30 years of legal experience. I provide my clients in Alachua County and the surrounding areas of Florida with personalized representation focused on their unique goals. I can assist you in drafting a prenuptial agreement or review an agreement you have been presented with to make sure it is in your best interest and will hold up in court.

## What Issues Are Covered By A Prenuptial Agreement?

Prenuptial agreements can be extremely broad. While they do not cover issues involving children — such as child support or child custody — they can lay out guidelines for any issues involving property. This is particularly beneficial for business owners who are getting married or professionals who own their own practice such as

physicians and dentists.
